

BLOOD BAG CASSETTES

Cassettes are a safe way of storing and protecting blood bags. When dropped the design of the cassette protects the blood bag by absorbing the shock. Cassettes are manufactured in aluminium but are also available in stainless steel.

Below is a table matching the Maco Pharma blood bag to the cassette required to store it.

These cassettes have a wing on the top and a window to see the label on the bag.

Part Number	Compatible with Maco Pharma ref.
CAS-0010AU	GSR0501AU
CAS-1000AU	GSR1000AU
CAS-5020AU	GSR2001AU, GSR5001AU, GSR7001AU
CAS-7010AU	GSR7000AU
CAS-5020AU	GSR7003AU, GSR7002AU

Labmode also has a range of other cassettes designed to take different bags, the table below has the most popular range of blood bags.

Part Number	Compatible with:
CAS009	Baxter 4R9957 (750ml)
CAS010	Baxter 4R9955 (500ml)
CAS011	Baxter 4R9953 (250ml)
CAS014	Gambro DF700

If you have a blood bag that is not listed or require a bespoke design, please contact us via our website to request a quotation as we can design and manufacture a cassette to suit.
