

SIDE ACCESS RACKS

Side Opening Horizontal units also known as side access racks, fit onto shelves of upright freezers to hold cryoboxes or microtiter plates. Side access racks feature a handle on one end to remove it from the freezer, these racks are best suited for longer term storage. Side access racks are manufactured from aluminium or stainless steel. They can be any size to meet the requirements of the user and have optional locking rods to hold items in place with a handle fitted to the top to make the unit easier to transport.

Labmode also offers a very popular adjustable side access rack which offers the user flexibility to store different size boxes. Using the unique design of this rack the user can set the removable shelves to store either 16 x 2" boxes, 12 x 3" boxes or 8 x 4" boxes. Part Number SOR002
